Authorizing mental health advance directives.

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Finds that: (1) Some mental illnesses cause individuals to fluctuate between capacity and incapacity;

(2) During periods when an individual's capacity is unclear, the individual may be unable to access needed treatment because the individual may be unable to give informed consent;

(3) Early treatment may prevent an individual from becoming so ill that involuntary treatment is necessary; and

(4) Mentally ill individuals need some method of expressing their instructions and preferences for treatment and providing advance consent to or refusal of treatment.

Recognizes that a mental health advance directive can be an essential tool for an individual to express his or her choices at a time when the effects of mental illness have not deprived him or her of the power to express his or her instructions or preferences.

Finds that: (1) A mental health advance directive must provide the individual with a full range of choices;

(2) Mentally ill individuals have varying perspectives on whether they want to be able to revoke a directive during periods of incapacity;

(3) For a mental health advance directive to be an effective tool, individuals must be able to choose how they want their directives treated during periods of incapacity; and

(4) There must be clear standards so that treatment providers can readily discern an individual's treatment choices.

Affirms that, pursuant to other provisions of law, a validly executed mental health advance directive is to be respected by agents, guardians, and other surrogate decision makers, health care providers, professional persons, and health care facilities.

Provides that the possessor of a dangerous or potentially dangerous wild animal, when provided with reasonable notice, shall allow the animal control authority, its staff, and its agents to enter the premises where the animal is kept once per year to ensure compliance with this act. Limiting the liability of landowners for unintentional injuries incurred while rock climbing.

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Finds that it is important to the promotion of rock climbing opportunities to specifically include rock climbing as one of the recreational activities that are included in RCW 4.24.210. By including rock climbing in RCW 4.24.210, the legislature intends merely to provide assurance to the owners of property suitable for this type of recreation, and does not intend to limit the application of RCW 4.24.210 to other types of recreation.

Declares that, by providing that a landowner shall not be liable for any unintentional injuries resulting from the condition or use of a fixed anchor used in rock climbing, the legislature recognizes that such fixed anchors are recreational equipment used by climbers for which a landowner has no duty of care.

Feb 27 Passed to Rules Committee for second reading.

Authorizing speeding enforcement on certain private roads.

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Pertains to speeding violations under RCW 46.61.400 that occur on the private roads within a community organized under chapter 64.38 RCW, provided that: (1) A majority of the homeowner's association's board of directors of a community organized under chapter 64.38 RCW votes to authorize the issuance of speeding infractions on its private roads, and declares a speed limit not lower than twenty miles per hour;

(2) The president of the homeowner's association sends a notarized letter explaining the vote to the top law enforcement official of the city or county within whose jurisdiction the private road is located;

(3) The homeowner's association has provided written notice to all of the homeowners describing the new authority to issue speeding infractions; and

Establishing contract harvesting of timber on state trust lands.

(DIGEST OF PROPOSED 2ND SUBSTITUTE)

Finds that it is in the best interest of the trust beneficiaries to capture additional revenues while providing for additional environmental protection on timber sales.

Finds that contract harvesting is one method to achieve these desired outcomes.

Directs the department of natural resources to establish and implement contract harvesting where there exists the ability to increase revenues for the beneficiaries of the trusts while obtaining increases in environmental protection.

Authorizes the department to establish a contract harvesting program by directly contracting for the removal of timber and other valuable materials from state lands.

Provides that the contract requirements must be compatible with the office of financial management's guide to public service contracts.

Declares that the department may not use contract harvesting for more than ten percent of the total annual volume of timber offered for sale.

Requires the board of natural resources to determine whether any special appraisal practices are necessary for logs sold by the contract harvesting processes, and if so, to adopt the special appraisal practices or procedures.

Requires the board of natural resources to establish and adopt policy and procedures by which the department evaluates and selects certified contract harvesters. **HB 2157** by Representatives Hunt and Armstrong

Providing more revenue for common school construction.

Finds that the traditional state revenue sources for providing state assistance for common school construction are insufficient for the level of support the state would prefer to provide. One method the legislature intends to use to increase available resources in the future is to endow the permanent common school fund so that investment income provides more significant revenues for common school construction in the future.

Provides that, while this process will take several years, the legislature intends to begin by depositing revenue from the following sources into the permanent common school fund: (1) The amount of federal forest revenue currently credited against the state basic education allocation;

(2) Five percent of the lottery revenue going into the education construction account; and

(3) Project savings going into the common school construction account under chapter . . ., (House Bill No. 1789) Laws of 2003.

Finds that an integrated transportation system is a necessity and recommends that streamlined operations and agency efficiencies be accomplished whenever possible.

Declares an intent to create a local boards coordinated program that efficiently combines the staff and local technical services of the transportation improvement board and the county road administration board. To provide leadership for the coordinated program, the legislature creates a local boards coordinating committee comprised of the secretary, or a designee, and two executive members of each board.

**SB 5681-S** by Senate Committee on Commerce & Trade (originally sponsored by Senators Sheahan, T. Sheldon, Honeyford, Hale and Mulliken)

Modifying minimum wage provisions.

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Finds and declares it is in the interest of Washington citizens to improve the state economy as expeditiously as possible. Washington has the highest unemployment rate in the nation. In addition to the dire economic situation in the state, Washington businesses are experiencing increases in mandatory minimum wage payments, workers' compensation costs, and unemployment insurance rates. The cumulative impact of these factors forces businesses to eliminate jobs and hire fewer employees. Immediate legislative action to reform the method for calculating the state's minimum wage rate is necessary for the economic vitality of the state.

Provides that, beginning September 30, 2003, and each September 30th thereafter, the current year's minimum wage rate shall be increased by the rate of inflation as provided under this act only for the months the state of Washington had full employment during the twelve months prior to each September 30th. Only the inflationary increases during the months of full employment shall be used for the purposes of the calculation under this act.

Provides that an employer may pay a new employee, who is not an emancipated minor under chapter 13.64 RCW, an initial wage rate equal to the greater of seventy-five percent of the rate required under RCW 49.46.020 or the federal minimum wage rate.

Provides that no political subdivision shall modify, in any respect, the minimum wage requirements of this chapter through ordinance, resolution, or other legislative action.

Declares that for the purposes of this act, "political subdivision" means a county, city, special purpose district, agency of the state, or any other municipality or public body created under state law.
